Secure Mobile Transaction Processing

Are you Mobile?

eProcessingNetwork makes wireless transaction processing available **at swiped rates** through common smartphones, cellphones and PDAs.

The *e*PNMobile Credit Card, Check and Gift Card / Loyalty Transaction Processing Application can prompt for invoice number, gratuity, other charges, process the transaction in real-time, and show the transaction authorization number **right on the phone display**.

Merchant Benefits

- Fraud Prevention: Real-time credit card, check and gift card/loyalty processing, get approval or decline response at time of sale.
- Lower Cost: Lower investment than dedicated wireless transaction processing units.
- Swiped Rates: Reduced rate with Card swipe transactions from credit card processors.
- Real-Time Processing: No chasing after customers for declined transactions.
- Ease Of Use: Less time consuming than phone-in (voice) processing.
- Reporting: Online tracking and transaction reports.
- Lower Overhead: No personnel needed in the back room to do manual entry authorizations.
- Multi-Function Device: Phone, email, texting and credit card/check terminal.

The entire process is simple and convenient to use. **eProcessingNetwork** offers reliable and secure credit card, check and gift card/loyalty transaction processing services and professional support every step of the way.
